

Invitation to the New Nordic CleanTech Showcase in Brussels!

I invite you and your colleagues to attend the [Nordic Cleantech Showcase](#) conference **on June 20, 2023**, at [The Press Club](#) in Brussels, Belgium.

This year's conference theme is "**Solar Thermal Heat, Renewable Clean Energy, Food and Water: Decarbonising Africa, India, and Europe.**"

Leading innovation companies in **Clean Energy, Foodtech, Web3, AI, and Grid balancing** will attend. Not least, a mouth-watering networking lunch with a "**Taste of Rwanda.**" kicks off the event.

" The conference will be attended by key stakeholders and **decision-makers** from **financing institutions** and the **European Union**. The event will be an important opportunity for the **European Commission** to learn about case studies and projects that can **decarbonize Europe, Africa, and India.**

Attending the conference will also help us understand the funding needs for the innovations that will **decarbonize Europe, Africa, India, and the world.** There will be a particular interest in the **#globalgateway** programs.

One part of the program will include the [EU - Rwanda Business Forum](#), which will occur the week after in Kigali on June 26-27th.

The **New Nordic Cleantech Showcase** conference is a premier gathering of leaders and innovators in clean technology. **Your participation** would be highly valued, and I believe it will be of great value.

Please let me know if you need further information or have any questions. I hope you and your team can join us in Brussels in June.

You can reach me on +46 72 740 66 06 or lars.ling@cleantechregion.com

With warm regards
